

GLADEWATER ISD

Health Services

Emergency Treatment

♥ Gladewater ISD requires a completed and signed form each year for all students which provides emergency information and authorizes school officials to obtain emergency medical treatment.

♥ Emergency procedures are in place to ensure proper attention for any student injured at school. Each school has at least one (1) Automated External Defibrillator (AED), and a First Response Team certified in **CardioPulmonary Resuscitation (CPR)**. Each AED is equipped with both adult and pediatric electrode pads.

♥ In the event a parent can not be reached appropriate measures will be taken to ensure the safeguard of the student including **9-1-1 services** if deemed necessary.

♥ It is imperative to keep the school up to date with the most current information (*i.e. home phone number, cell phone numbers and current employment, other emergency contact numbers est....*) so that we may reach a parent or guardian.
